Quality, Comfort, Style

SAFCO
Creating Your Comfort Zone

Quality, Comfort, Style

Dear Safco Customer:

What do people want most in their working environment?

At Safco, we believe that comfort is the main ingredient to providing a satisfying and productive work experience. Comfort can mean different things to different people. It can mean the individualized comfort that comes from a well-designed, finely crafted chair. It can be the satisfaction you feel from having the perfect storage unit to help you stay organized. Or it can simply be the sense of well being you get from using the correct ergonomic wrist support system designed to keep you comfortable and safe all day...every day.

Safco was founded over 35 years ago with a small offering of corrugated storage products designed for use in offices. Every year since then, we have added high quality, innovative products to our line and backed them with the best service in the industry. Today, we are proud to offer over 2000 premier products that have been designed to meet specific needs in all areas of the workplace.

Researchers report that a worker who sits for most the day will spend over 1500 hours a year in their chair. If that chair is uncomfortable, poorly designed or simply wrong for the task, the resulting lack of body support can lead to fatigue, headaches and neck, shoulder and back pain. Safco has the remedy with a complete line of executive, multi-function, task, stack, industrial and drafting chairs in a broad range of styles, fabrics and prices. Seating is one of the most important purchases a company makes. Make the right choice with Safco's combination of quality, comfort and style.

Seating Solutions is one of five Safco catalogs being offered this year. We invite you to request a copy of our Workplace Organization, Personal Comfort, Art & Engineering and Facility Essentials catalogs. As you browse through these books, I'm sure you'll see how we've dedicated ourselves to "Creating Your Comfort Zone" throughout the workplace.

Sincerely,

Dan Zdon
General Manager

Wood Guest Chairs

Seating designed to make your guests feel like royalty. It's easy to make a distinctive first impression with any style from our Classic Wood Guest Collection. Finely crafted from solid beech wood with a meticulous eye to detail, these chairs provide the highest standards of design, quality and comfort.

Create your own environment from contemporary, transitional and classic designs in your choice of finish and fabric. Sculptured and tapered legs; curved and arched armrests; open and upholstered backs define the elegance of this group. These are the features that provide distinctive solutions for conference rooms, private offices and reception areas.

A. WorkSpace® George Guest Chair

In the best transitional style, the line of the back cross rail, tapered legs and the graceful upward and outward curve of its arms characterize this chair. Fully upholstered back and seat. Select from our Fabric Grades I, II, III, IV or V or send us the fabric of your choice. George is available with a Mahogany, Medium Oak or Cherry finish. Shipped fully assembled.

Model	W x D x H
◆ 958	23 x 24 x 32 ³ / ₄ "H

B. WorkSpace® Charles Guest Chair

Tapered legs, curved armrests and the three cut-out squares that crown the top of this slat back chair all combine to form a unique seating statement. Fully upholstered seat in your choice of Fabric Grade I, II, III, IV or V or choose your fabric locally and ship it to us. Charles is available in Mahogany, Medium Oak, Walnut and Cherry finishes. Shipped fully assembled.

Model	W x D x H
◆ 949	22 ¹ / ₂ x 23 x 32"

C. WorkSpace® Arthur Guest Chair

The straight line upholstered backrest, softly sculptured arms and detailed beaded legs all contribute to the design of this elegantly traditional chair. Fully upholstered seat and back in your choice of Fabric Grade I, II, III, IV or V or the fabric of your choice. Arthur is available with a Mahogany, Medium Oak or Cherry finish. Shipped fully assembled.

Model	W x D x H
◆ 625	23 x 23 x 35 ¹ / ₂ "

D. WorkSpace® Henry I and Henry II Guest Chairs

Compound bent ellipse contoured wood forms the graceful curved line that makes up the back and armrests of these classically styled chairs. Fully upholstered seats with your choice of fully upholstered or slat back styles. Henry I and Henry II come in Fabric Grade I, II, III, IV or V or fabric you send to us. Choose from Mahogany, Medium Oak, Walnut or Cherry finishes. Shipped fully assembled.

Industrial Chairs

All Task Master® seating is backed by the best warranty in the industry. The warranty guarantees against mechanical or structural failure due to defective material or workmanship for up to 15 years. This warranty will not be devalued if chairs are used more than 8 hours per day.

A. Task Master® Industrial Series

With an overall height of 17" to 35", the ergonomically designed Industrial Series provides 8" (200mm) of pneumatic lift and an additional 10" with our Wave Tube Extension. This patented design enables workers of any size to adjust the height of the chair to fit the task in minutes... without tools. Each features a 5-leg, 26" dia. tubular steel base with 2½" high-impact nylon glides for safety and stability. Sturdy, ergonomically correct, polypropylene footrests mount securely to base. Seats and backs are contoured to promote good posture and covered with black microcellular, self-skinning polyurethane foam for comfort. 360° swivel. Meets or exceeds ANSI/BIFMA standards. Patent #5,836,555 and Des. 381,823. Assembly required.

Deluxe Industrial Chairs - Paddle lever controls 10° seat tilt and 22° backrest tilt. Ergo knob controls 5" backrest height adjustment. Ergonomically correct oversized seat and back are contoured to promote good posture. Includes high, mid and low-rung footrests. 2½" seat cushion depth.

Utility Industrial Chairs - Paddle lever control provides 22° backrest tilt. Ergo knob controls 5" backrest height adjustment. Includes high and low-rung footrests. 2½" seat cushion depth.

Economy Industrial Chairs - Ergo knob controls for 3" backrest depth and 3" backrest height adjustment. Includes one low-rung footrest. 2" seat cushion depth.

Description	Model	Dia. x H	Seat W x D	Back W x H

C. Adjustable Footrest

Height range of 5½" to 15" with 9 positions in 1¼" increments. Textured, anti-slip platform size is 20"W x 12"D and mounts at an 8° angle. Heavy gauge black tubular steel construction. Locks together with button tabs.

Model	Overall W x D x H
5124	20 x 12 x 5½ to 15"

D. Work Trolley

Metal tray keeps tools and parts within easy reach. Height adjusts from 16" to 21". Rolls easily with five 3" polyurethane casters (2 locking). One-piece dust cover protects the lift mechanism from dirt and dust.

Model	Metal Tray Dia.	Seat Dia.
5102	18"	16"

* Adjustment Features - Refer to chart on page 24

E. Task Master® Workbench Height Series

Our Operational Chairs are designed to be used in workspaces requiring less height and flexibility than our Industrial Series. They feature an overall height range of 19" to 27" and an 8" (200mm) pneumatic lift as well as a 5-star, 25" dia. nylon base, 3-piece telescoping dust cover and 2" high-impact nylon glides. Includes 20" dia. chrome-plated footring. Black microcellular, self-skinning polyurethane foam seat and back. Contoured, oversized seat design, backrest tilt and height adjustments make these chairs adaptable to your exact height and job requirements. All chairs swivel 360°. Meets or exceeds ANSI/BIFMA standards. Patent Des. #381,823

Deluxe Operational Chair - Seat has a 10° seat tilt with paddle lever. Backrest has paddle lever control for 22° backrest tilt and ergo knob adjustment for 5" backrest height. Seat cushion depth 2½". Assembly required.

Utility Operational Chair - Backrest has paddle lever control for 22° backrest tilt and ergo knob adjustment for 5" backrest height. Seat cushion depth 2½". Assembly required.

Economy Operational Chair - Backrest has ergo knob adjustment controls for 3" backrest depth and 3" backrest height. Seat cushion depth 2". Assembly required.

A. WorkSpace® Lion Tamers Seating

This specialized seating group provides just the right seat and back combinations to handle the wide range of activities found in institutional, industrial and commercial locations.

A pentagon shaped steel base with varying height footrest is the key design element of this stool series. This durable steel base is topped by your choice of natural wood seat and back, heavy-duty upholstered seat and back or polyurethane seat and back. All stools feature a single lever seat height adjustment and manual back height and depth adjustment. Each comes with dual wheel carpet casters. Seat height range is 18½" to 33"H. Upholstered units are available in Black, Burgundy and Grey acrylic fabric or Black vinyl. Some assembly is required.

Optional accessories include Adjustable Arms for polyurethane style only, Hard Floor Casters and Floor Glides.

Description	Model	Seat W x D	Back W x H
◆ Natural Wood Seat/Back	841100	18 x 16½"	17 x 12"
◆ Upholstered Seat/Back	861100	19 x 19"	17 x 16½"

Seating Feature Information

There are many options to consider when selecting the chair that best suits your personal needs. The following symbols will help in selecting the adjustment features you need to work comfortably all day long.

The diagram displays 18 numbered icons, each representing a specific chair adjustment feature. Each icon shows a chair with a callout indicating the feature's location and range of motion. The features are arranged in a grid:

- 1. Pneumatic Seat Height Adjustment: A vertical arrow indicates the seat's height being raised or lowered.
- 2. Back Height Adjustment: A vertical arrow indicates the backrest's height being raised or lowered.
- 3. Seat Depth Adjustment: A horizontal arrow indicates the seat's depth being moved forward or backward.
- 4. Seat Glide Mechanism: A horizontal arrow indicates the seat's distance from the base being adjusted.
- 5. 360° Swivel: A circular arrow indicates the chair's rotation.
- 6. Tilt: A curved arrow indicates the chair's backrest tilting backward.
- 7. Mid-Range Knee Tilt: A curved arrow indicates the seat tilting forward.
- 8. Knee Tilt: A curved arrow indicates the seat tilting forward.
- 9. Synchronized Knee Tilt: A curved arrow indicates the seat tilting forward.
- 10. Dual-Action Tilt: A curved arrow indicates the chair's backrest tilting backward.
- 11. Tilt Tension: A curved arrow indicates the chair's backrest tilting backward.
- 12. Tilt Lock: A curved arrow indicates the chair's backrest tilting backward.
- 13. Posture Lock: A curved arrow indicates the chair's backrest tilting backward.
- 14. Multi-Task Control: A curved arrow indicates the chair's backrest tilting backward.
- 15. Asynchronous Control: A curved arrow indicates the chair's backrest tilting backward.
- 16. Dual-Clutch Posture Control: A curved arrow indicates the chair's backrest tilting backward.
- 17. Variable Synchro-Tilt: A curved arrow indicates the chair's backrest tilting backward.
- 18. Inverse Synchro-Tilt: A curved arrow indicates the chair's backrest tilting backward.
